Saint Valentine was a 3rd-century Roman saint, commemorated in Western Christianity on February 14. From the High Middle Ages, his Saints' Day has been associated with a tradition of courtly love. He is also a patron saint of Terni, epilepsy and beekeepers. According to legend, St. Valentine signed a letter "from your Valentine" to his jailer's daughter, whom he had befriended and healed from blindness. Another common legend states that he defied the emperor's orders and secretly married couples to spare the husbands from war. It is for this reason that his feast day is associated with love.
